GMID Activation, Password Set up and 2-Step Verification Preferences

In order to access the GM network and have access to Socrates, MyServices and the HCC (Hourly Communications Channel), you must have an active GMID and password.

- Activating your GMID enables you to access GM applications and websites from a GM Network computer. An active GMID means you have logged into the GM network within the last 60 days.

- 2-Step Verification enables you to access the GM applications from your home computer, cell phone, iPad or tablet

FIRST TIME SET UP

If you do not have an active GMID and password, you must activate your GMID and create a password.

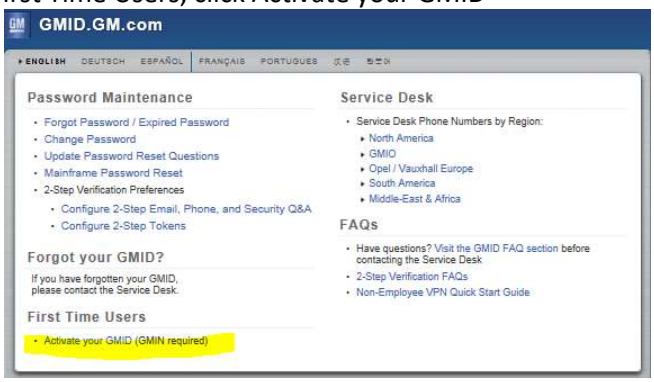
- Your GMID is a six-character code used for logging into computer systems.
- Your password is determined by you
- For first time set up, you should set up the 2-Step Verification preferences

WHAT YOU NEED

- You must perform this steps on a GM Network computer
- You must have your GMIN (a nine-digit numeric code used to identify you) GMIN should be on your badge.
- Have pen and paper with you

STEPS FOR FIRST TIME SET UP

1. From a GM Network computer, start the browser
2. Go to https://GMID.GM.COM
3. Under First Time Users, click Activate your GMID



4. Follow ALL the steps to complete
   GMID activation
   Password set up
   2-Step Verification Preferences

5. Retain for your records: your GMID, password and 2-Step Verification preference. This information is considered private and confidential and should not be shared with others.

GMID Activation, Password Set up and 2-Step Verification Preferences
